- **How to Dry Camp & Boondock like a Pro**
- **Is the Water in Your RV Safe to Drink?**
- **How to RV in the Winter**

Thursday, January 25th | SHOW HOURS: 11a - 8p

12:00 PM - RV Basics: Electrical Systems

Getting into RVing can be intimidating - there's a lot to learn! In this seminar, RV expert James Adinaro from The Fit RV covers the basics of RV electrical systems so that you can get camping ASAP, with a minimum of fuss, and no surprises. No previous electrical knowledge is necessary for this seminar that will keep your RV adventures powered up!

1:00 PM - RV Basics: Plumbing Systems

No matter the RV, they all share some of the same general systems and controls. Learn the basics of RV plumbing systems, both freshwater AND wastewater. This seminar will also equip you to handle the #1 fear of new RVers... the dump station.

2:00 PM - How To RV in the Winter

Wintertime RV trips have many advantages, like fewer crowds. But they have their challenges, too. With a little forethought, you can overcome the challenges and enjoy winter RV trips, even if you don't have a 4-season motorhome or towable. In this seminar, seasoned RVers James and Stef Adinaro share their top ten tips for wintertime RVing that anyone can use to get started.

3:00 PM - Is the Water in Your RV Safe to Drink?

You don't have to bring bottled water along on your RV trips. With a few simple products and procedures, it's easy to drink the water from your RV's water system and have one less thing to pack. Learn what you need to do to make your RV's onboard water clean, tasty, and safe.

5:00 PM - How To Dry Camp and Boondock Like a Pro

Whether you're overnighing at Walmart, or deep in the mountains far from other people, RV dry camping forces you to manage your resources. If you've never tried it before, that can be intimidating! In this seminar, James and Stef Adinaro, experienced boondockers, discuss all the things you need to consider to enjoy dry camping without any worries.

Friday, January 26th | SHOW HOURS: 11a - 9p
